

MAYANK SEJWAR

AI & Data Science Student

Gwalior, Madhya Pradesh | +91 62673 24100 | mayanksejwar58@gmail.com | [GitHub](#) | [LinkedIn](#)

ABOUT ME

Passionate AI & Data Science student with a strong interest in Artificial Intelligence, Retrieval-Augmented Generation (RAG), and intelligent software systems. Experienced in developing real-world AI projects with a focus on backend systems, semantic search, NLP, and problem solving. Eager to learn modern technologies and contribute to innovative AI solutions.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence & Data Science

2025 – 2029

Madhav Institute of Technology & Science (MITS), Gwalior

Senior Secondary Education (Class 12th)

2024 – 2025

Government School of Excellence No. 1, Morar, Gwalior

PROJECTS

Digital Eye — Assistive Vision App for the Visually Impaired | Flutter, Dart, Google ML Kit, Text-to-Speech

- Cross-platform mobile app for visually impaired users, using on-device Google ML Kit for real-time object detection and OCR text recognition.
- Built a hands-free "walking mode" that scans the camera feed for obstacles and speaks Hindi-language alerts, plus an SOS auto-dial module and voice battery/time announcements.

Expense Tracker API — Full-Stack Expense Management Platform | Python, FastAPI, Supabase (PostgreSQL), Streamlit, JWT

- Full-stack expense tracker with a FastAPI backend and Streamlit frontend, built on a Repository-Service architecture with JWT + bcrypt authentication.
- Complete CRUD REST API with category/date filtering, Supabase (PostgreSQL) storage, and deployment on Render with auto-generated Swagger docs.

MindVault AI — Intelligent Document Question Answering System | Python, FastAPI, ChromaDB, Gemini AI

- AI-powered document intelligence system built with Python and FastAPI, featuring a full RAG pipeline with semantic search and multi-aspect query embeddings.
- Integrated cross-encoder reranking, OCR-based text extraction, Google Gemini AI, and secure JWT authentication with ChromaDB vector storage.

CERTIFICATIONS & ACHIEVEMENTS

- Top 10 Finalist — "DevSprint: Leveraging the Power of AI" National Level Hackathon organized by GDG on Campus, MITS Gwalior.

SKILLS

Programming & Frameworks: Python, FastAPI, Flask, Dart/Flutter, Streamlit

AI / ML: Retrieval-Augmented Generation (RAG), ChromaDB, Google ML Kit (Object Detection, OCR), Google Gemini API

Backend & Cloud: REST API Design, JWT Authentication, Supabase (PostgreSQL), Render/Vercel Deployment

Soft Skills: Problem Solving, Teamwork, Leadership
