

VAIBHAV SHARMA

Full Stack Developer | Data Scientist | Cloud Engineer
India | vaibhav.sharma@example.com | +91-98765-43210
LinkedIn: linkedin.com/in/vaibhav-sharma | GitHub: github.com/vaibhav-sharma

PROFESSIONAL SUMMARY

Versatile Computer Science professional with hands-on experience in MERN stack development, data science, machine learning, cloud computing, and DevOps. Experienced in full-stack applications, REST APIs, SQL and NoSQL databases, machine learning workflows, and cloud/container deployment.

TECHNICAL SKILLS

Programming	Python, JavaScript, TypeScript, SQL, Bash
Full Stack	HTML5, CSS3, React.js, Redux, Node.js, Express.js, REST APIs, JWT, Tailwind CSS
Databases	MongoDB, PostgreSQL, MySQL, Redis
Data Science & ML	NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, TensorFlow, EDA, Feature Engineering, Statistics, Predictive Modeling
Cloud & DevOps	AWS, Docker, Git, GitHub Actions, CI/CD, Linux, Kubernetes, Terraform, Jenkins, Nginx
Tools	GitHub, Postman, VS Code, Jupyter Notebook, Power BI

EXPERIENCE

Full Stack Developer Intern

TechNova Solutions — Remote | Jan 2026 – Jun 2026

Tech: React.js, Node.js, Express.js, MongoDB, JWT, Docker, GitHub Actions, AWS

- Developed responsive web applications using React.js, Node.js, Express.js, and MongoDB.
- Designed RESTful APIs and implemented JWT-based authentication and authorization.
- Built reusable React components and integrated third-party APIs.
- Used Git/GitHub, Docker, GitHub Actions, and AWS EC2 for development and deployment.

Data Science Intern

DataMind Analytics — Remote | Jul 2025 – Dec 2025

Tech: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, SQL, Power BI

- Performed exploratory data analysis and data cleaning using Python, Pandas, and NumPy.
- Developed predictive models with Scikit-learn and performed feature engineering and model evaluation.
- Used SQL for data extraction and Power BI for analytical dashboards and reporting.

Cloud & DevOps Intern

CloudStack Technologies — Remote | Jan 2025 – Jun 2025

Tech: AWS, Docker, Kubernetes, Terraform, Jenkins, GitHub Actions, Linux, Nginx

- Worked with AWS EC2, S3, IAM, and CloudWatch.
- Created CI/CD pipelines using Jenkins and GitHub Actions and containerized applications with Docker.
- Worked with Kubernetes, Terraform, Linux environments, and Nginx reverse proxy configuration.

PROJECTS

CareerPilot — MERN Career Platform

Tech: React, TypeScript, Node.js, Express, MongoDB, JWT, Docker, AWS

- Built a full-stack career management platform with JWT authentication, REST APIs, MongoDB, and responsive React dashboards.
- Containerized the application and deployed backend services on AWS.

Customer Churn Prediction System

Tech: Python, Pandas, NumPy, Scikit-learn, Matplotlib

- Built a churn prediction pipeline with data cleaning, EDA, feature engineering, classification models, and evaluation.
- Visualized analytical patterns using Matplotlib and Seaborn.

Cloud Deployment Automation

Tech: AWS, Docker, Kubernetes, Terraform, GitHub Actions

- Created Docker containers, automated CI/CD workflows, AWS deployments, Kubernetes configurations, and Terraform infrastructure.

Sales Analytics Dashboard

Tech: Python, SQL, Power BI, Pandas

- Analyzed sales data, created KPIs, and built an interactive Power BI dashboard to generate business insights.

EDUCATION

Bachelor of Technology — Computer Science & Engineering

XYZ Institute of Technology, India | 2022 – 2026

Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Machine Learning, Data Science, Cloud Computing, Software Engineering.

CERTIFICATIONS

AWS Cloud Practitioner • Google Data Analytics • Python for Data Science • Docker & Kubernetes Fundamentals • Git and GitHub • Machine Learning with Scikit-learn

KEY STRENGTHS

Full Stack Web Development • Data Analysis • Machine Learning • Cloud Computing • DevOps • REST APIs • Database Design • Problem Solving • System Deployment • Analytical Thinking
